Nurturing Young Minds

ABOUT US

KPL Learning was established in the year 2005 under the academic guidance of Dr. R.D. SHARMA (Ex. Asso. Professor NCERT). Today the products are widely accepted by most of the progressive schools across the country.

Our research and development department comprises of prominent educators and academic professionals with a vast experience of teaching in the leading schools across the nation.

The "Experiential Learning Kit" enhances and stimulates the class room learning through "hands-on" experimentation and self-discovery. These kits are meant to initiate scholastic and co-scholastic activities which in later years become the basis for all curricular and co-curricular learning.

Rationale

Learning gives creativity, **Creativity** leads to thinking, Thinking provides knowledge and **Knowledge** makes you great - **Dr. A.P.J. Abdul Kalam**

It gives me immense pleasure to introduce KPL Learning Associates Pvt. Ltd. as the pioneers in researching, developing and manufacturing of learning aids and solutions for schools for more than a decade. We are a Delhi based organization and are associated with more than 350+ schools in Delhi-NCR and spreading across PAN India.

The current academic curriculum followed in Indian schools lays more emphasis on gaining knowledge than applying it. Offering a pragmatic solution to conceptual problems is what is required to enhance their skills in contexts, which are significant to them. Experiential learning does all that and hence is a vital part of progressive education. Our products echo the spirit of **LET'S HAVE FUN WHILE WE LEARN.**

It's an amazing experience to teach preschoolers and primary school kids **FOUNDATIONAL LANGUAGE & LITERACY AND FOUNDATIONAL NUMERACY.** The basic concepts like the alphabets, akshars, colors, shapes, numbers, reading etc. Our kits promise scientifically designed, non-toxic, child friendly educational manipulative / TLM for hands-on activities that let the children enhance and explore fine motor skills, cognitive skills, eye-hand-mind coordination, language skills etc and develop reasoning and problem solving skills.

Looking forward to a great association ahead.
